TOVA StoreFast

Self-repairing high speed door

Fast. Safe. Reliable.

The TOVA supermarket door is the ideal solution for high-traffic areas in supermarkets. It ensures smooth customer and goods flow — with maximum security.

Anti-Crash Technology with self-repairing

- Zip system which allows the curtain to slip out of the track after a crash
- The curtain automatically repairs itself
- The door is ready to operate again immediately
- Reduction of costs and failures to a minimum

Opening in case of power failure

- Integrated counterweights
- In case of power failure, the door opens automatically
- Safe passage for persons and goods

Low space requirements

- Very compact design
- More free available space for shelves

High security standards

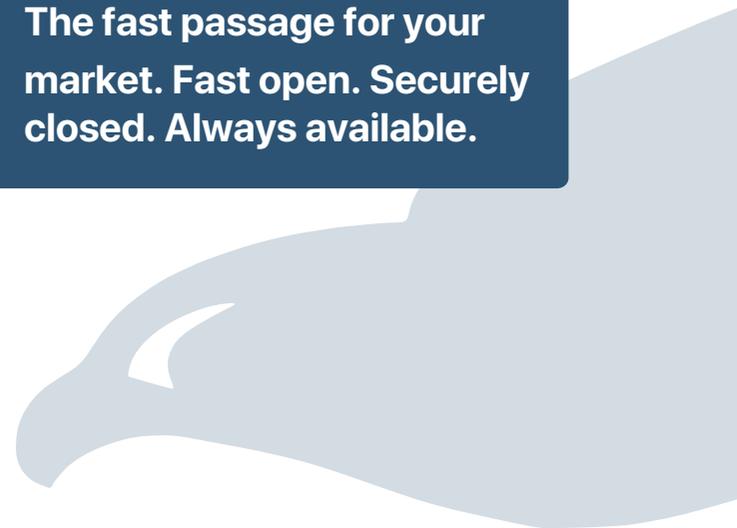

- Integrated light curtain
- Monitoring of the entire opening
- Contactless safeguarding of persons and goods

Your advantages

- ✓ Highest reliability
- ✓ Minimum repair costs
- ✓ Fast flow of persons and goods
- ✓ Modern design
- ✓ Ideal for new markets and renovations

TOVA StoreFast

The fast passage for your market. Fast open. Securely closed. Always available.

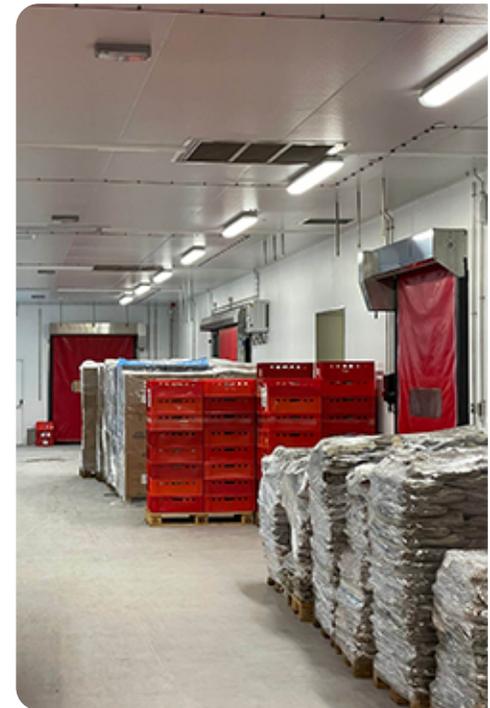

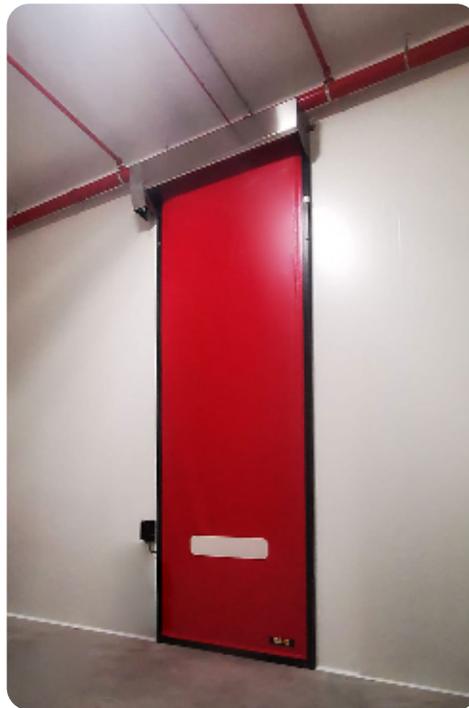

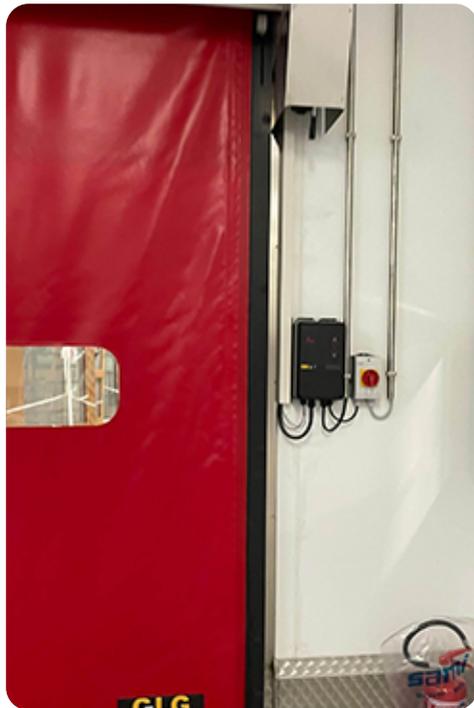

TOVA Unbreakable

Resistant High-speed door

The TOVA Unbreakable has been designed for high-traffic areas, where collisions are unavoidable. The unbreakable construction ensures smooth processes — even after a crash.

YOUR ADVANTAGES

- Fast opening
- Impact-resistant construction
- Ultra-durable
- Minimum repair costs

TOVA ColdFast

High speed door with insulated curtain

The TOVA ColdFast has been designed for temperature-controlled areas. With its self-repairing system, it is ideal for high-traffic areas in your warehouse.

YOUR ADVANTAGES

- Fast opening
- High insulation
- Self-repairing Zip system
- Up to -20°C
- With integrated heating
